

With our Agent Network and company growing, so too are we at home office. Please welcome the following new staff members helping us enhance our capabilities in each department.

Accounts Payable-

Geetika Singla- *I moved to Canada with my family in May 2020. I held my CA designation in India and with all my previous experience in accounting and taxation, I am looking forward to the exciting opportunities and challenges at SPI.*

Accounts Receivable-

Tiffany De Lima- *Hello, my name is Tiffany. My previous work history includes customer service, administration, and finance. I enjoy the outdoors, action movies, and podcasts.*

Agent Support-

Adrian Fresnido- *Hi, my name is Adrian. I am an easy-going and understanding person, who aims to please and support the people around my social and work circles. A few months after leaving the electrical trade, I investigated various fields of work to figure out what I would want to study; this ended with the decision to go into psychology as I am a strong advocate of mental health awareness, let alone the desire to help people struggling with such issues. The work I went through over the years (warehousing, construction electrical, retail, and fast-paced office work) has helped mold me into someone that can manage stress, think critically, and have the openness to learn new techniques to work more efficiently. I look forward to bringing my skills to the SPI Team.*

Claims & Insurance-

Jessica LeClerc- *Hello, my name is Jessica, and I am excited to be joining the SPI family. I believe my experience in the claims industry and previous background in the educational system and tax industry will prove to be an asset to this role. Developing strong relationships is the foundation of everything I do, both professionally and personally. I have a lot of passion, enthusiasm, and curiosity for the world around me.*
